## Destination Information

Hawaii is a chain of volcanic islands in the Pacific Ocean. It is the newest of the 50 US states and has over one million permanent residents. Due to the quality of surf, this number swells over the winter months, especially on the North Shore.

Hawaii has a nice warm, tropical climate and lovely warm water, making it a popular destination for tourists, surfers and other water users.

## What To Bring

## How to get here

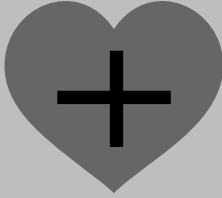

Honolulu International Airport (HNL) on Oahu is Hawaii's major airport, serving as the entry point for most of Hawaii's visitors. All major domestic carriers and many international carriers serve Oahu, so you can get here from just about anywhere.

There are also direct flights from the U.S. mainland to Maui, Kauai, and Hawaii Island, but for the most part, you may need to connect through Oahu to get to the neighbor islands including Lanai and Molokai.

There are daily ferry services from Lahaina Harbor in Maui to both Manele Bay in Lanai and Kaunakakai Harbor in Molokai.
